

## A Day in the Life of Facilities Construction and Maintenance

Energy Efficiency: Every day we monitor the most efficient use of

# 152996

KWH. This

is enough energy to power **158** home refrigerators for one year.

We mow

# 14,000

acres a

year. This is 67 home size lots per week and is also equivalent to 200 average size Florida farms.

# 4,824.5 TONS

of

HVAC is maintained. This is enough tonnage to cool **1072** 2000 SF Charlotte County homes.

# 83

Alarms are monitored 24/7

# 2157

Trash cans are emptied a week. (This does not include recycle boxes.)

# 2

Techs work 24/7 with an on-call phone system that monitors over 2,000,000 sf, over 34 football fields, including the end zones.

# 1796

Sinks are cleaned each week.

Additionally we clean and maintain

# 2112

toilets and urinals a week.

# Over \$398 Million

# \$\$\$\$\$

Is the replacement value of the County buildings that Facilities oversees for space planning, energy efficiency, and repair and maintenance.

In Fiscal Year 16 we are managing

# 77

active capital projects at 45 sites.

# 125-150

walk in customers are helped every day by our security officers.

**Generators:** We monitor and service

# 90

of them.

Work orders last year consisted of:

# 2747

549

Electrical and Lighting,

826 General Contracting, 61 Painting, 443 Plumbing, 51 Roofing, 30 Pest Control, 75 Parking Meters, 508 HVAC & Ice, and 204 Fire/Alarms/Mechanical.
